

Existing security system assessment

Physical access

1. Do you use facility access cards for physical access today (i.e., prox, iCLASS or similar)?
 - a. If YES, continue
 - b. IF NO, Privaris does not support

2. What brand of card do you use?
 - a. If HID, Indala, Kantech, or CASI, continue
 - b. If anything else, Privaris does not support

3. What is the format of the card?
 - a. bit format (26, 37, 38, other)
 - b. iCLASS
 - c. Corporate 1000
 - d. Other

4. If HID:
 - a. Are the cards Prox, iClass or both? [**plusID** 60, 75 or 90 models]
 - b. How many door readers are required or already installed?
 - c. How many different facilities? Do they share the same system?
 - d. Do you have a requirement to secure gates to facilities or parking garages? [**plusID** 90 model only]
 - e. Total number of employees per facility?

5. How many prox cards does the average employee carry today?

Logical access

1. What PC platforms are you running?
 - a. If Unix, Linux or Mac, Privaris does not support
 - b. If Windows continue

 2. How do you control access to PC's, laptops, applications and networks?
 - a. Standard Microsoft domain login: username and password
[*Privaris supports*]
 - b. Smart cards
[*Privaris supports*]
 - c. 3rd party software: check with your Privaris representative for **plusID** Compatible software partners
 - d. RSA SecurID one-time password (OTP) tokens
[*Privaris supports, plusID 75 or 90 models*]
 - e. Biometrics: ask for vendor name and hardware implementation type – USB sensor, laptop embedded, Match On Card, etc.
[*Privaris may support*]

 3. How many user names and passwords does each employee typically have to remember?
-
